

PART	PICTURE	DESCRIPTION	QTY
A		Base	1
B		Fixed-direction wheel with brake	2
C		Swivel wheel with brake	2
D		Locator	1
E		Spring washer	8
F		Steel washer	16
G		Bolt	16
H		Nut	8
I		Open-end spanner	1
J		Spanner	1

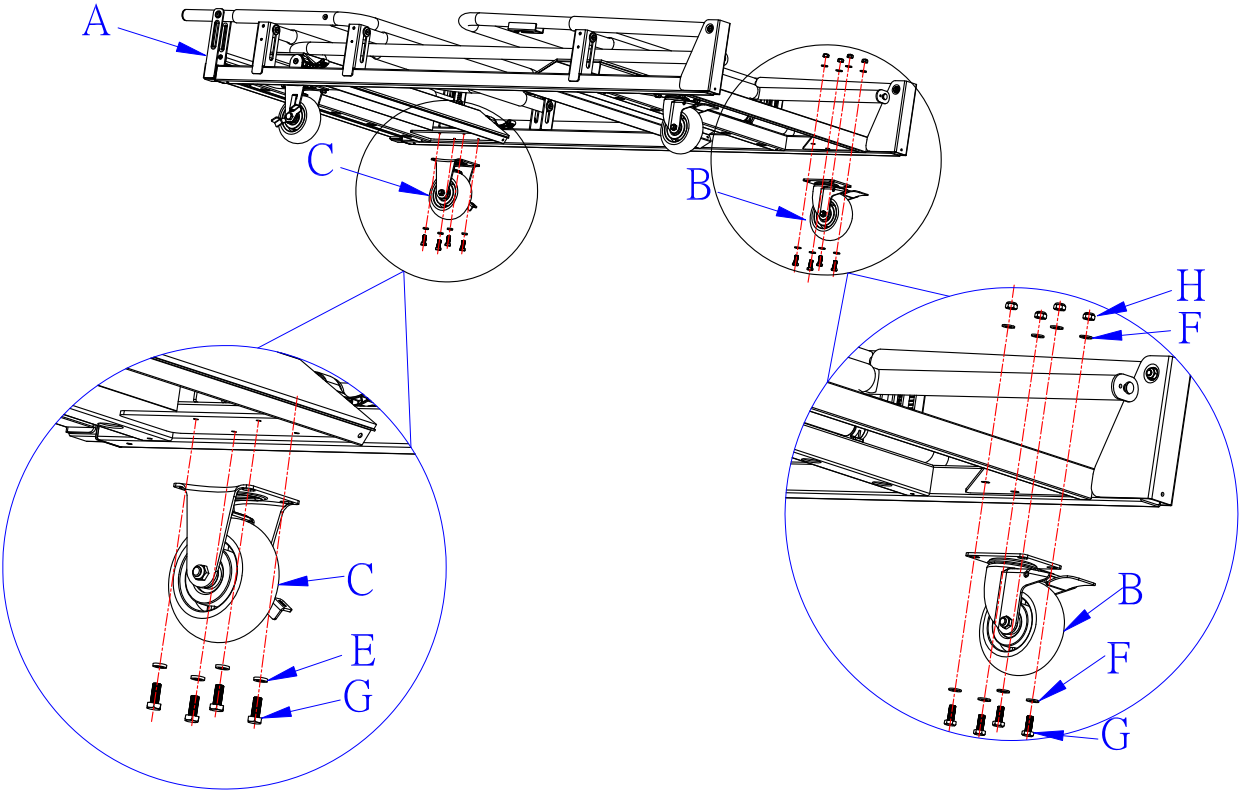

Warning: Only use the trolley on hard, smooth and flat surfaces. Do not use it on steep inclines, especially when loaded, as it may gather speed and careen out of control.

ASSEMBLY INSTRUCTIONS

STEP 1: Place **F** on **G** and repeat four times. Next put the four **F&G** parts through **B** and then all four through **A**. Finally add four **F** parts before screwing on four **H** parts. Repeat the assembly for wheel **B**.

STEP 2: Place **E** on **G** and repeat four times. Next put the four **E&G** parts through **C** and repeat four times and attach **E&G+C** to **A** four times. Repeat the assembly for wheel **C**.

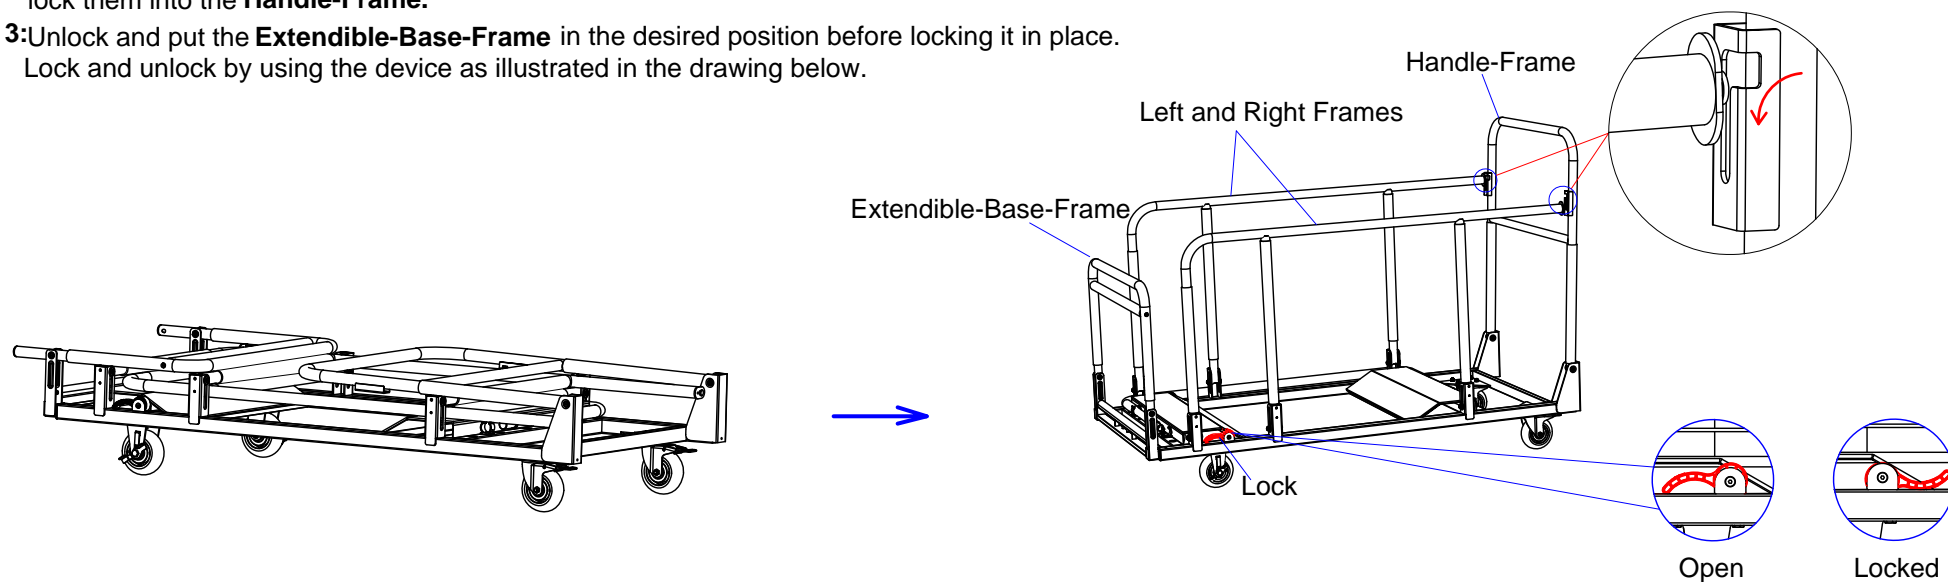

TO Open:

STEP 1: Open the **Extendible-Base-Frame**, the **Handle-Frame**, the **Left-Frame** and the **Right-Frame**, one by one.

STEP 2: Pull up the **Right and Left Frames** to link them to the **Handle-Frame** as illustrated in the drawing below. Then push the **Right and Left Frames** down to lock them into the **Handle-Frame**.

STEP 3: Unlock and put the **Extendible-Base-Frame** in the desired position before locking it in place. Lock and unlock by using the device as illustrated in the drawing below.

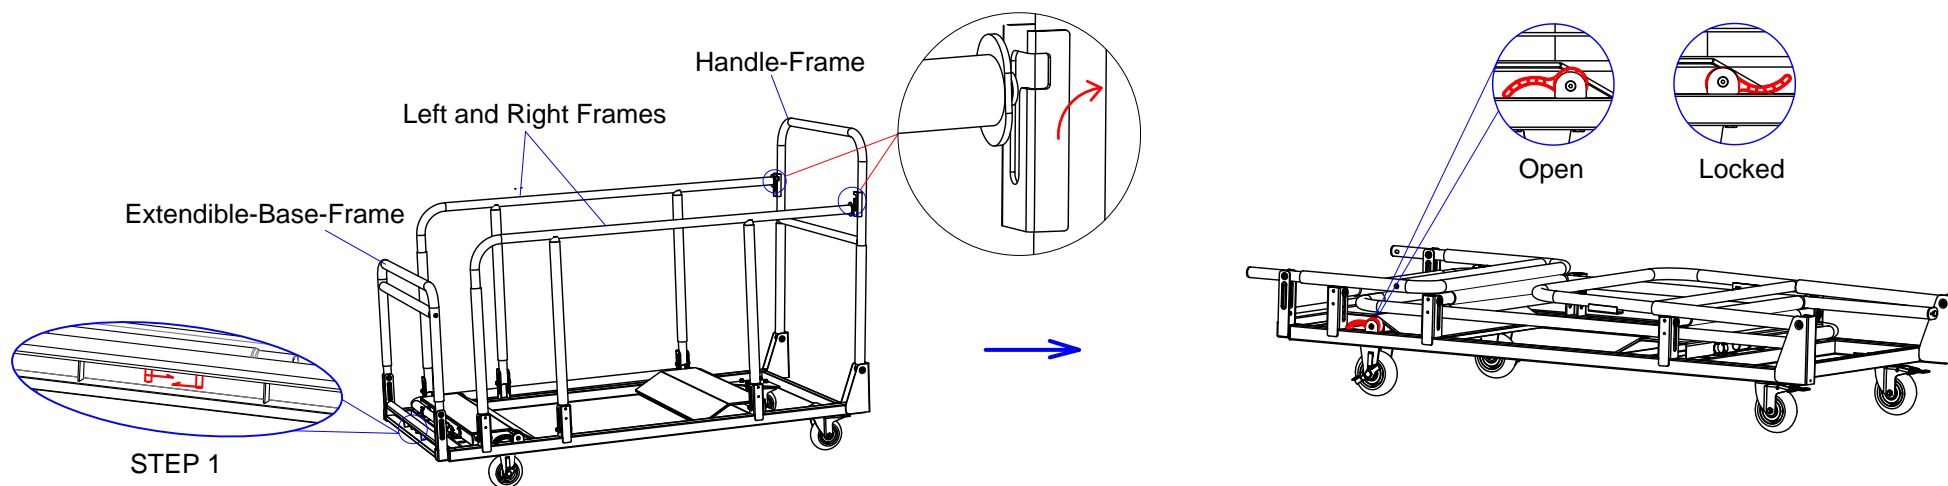

TO Fold:

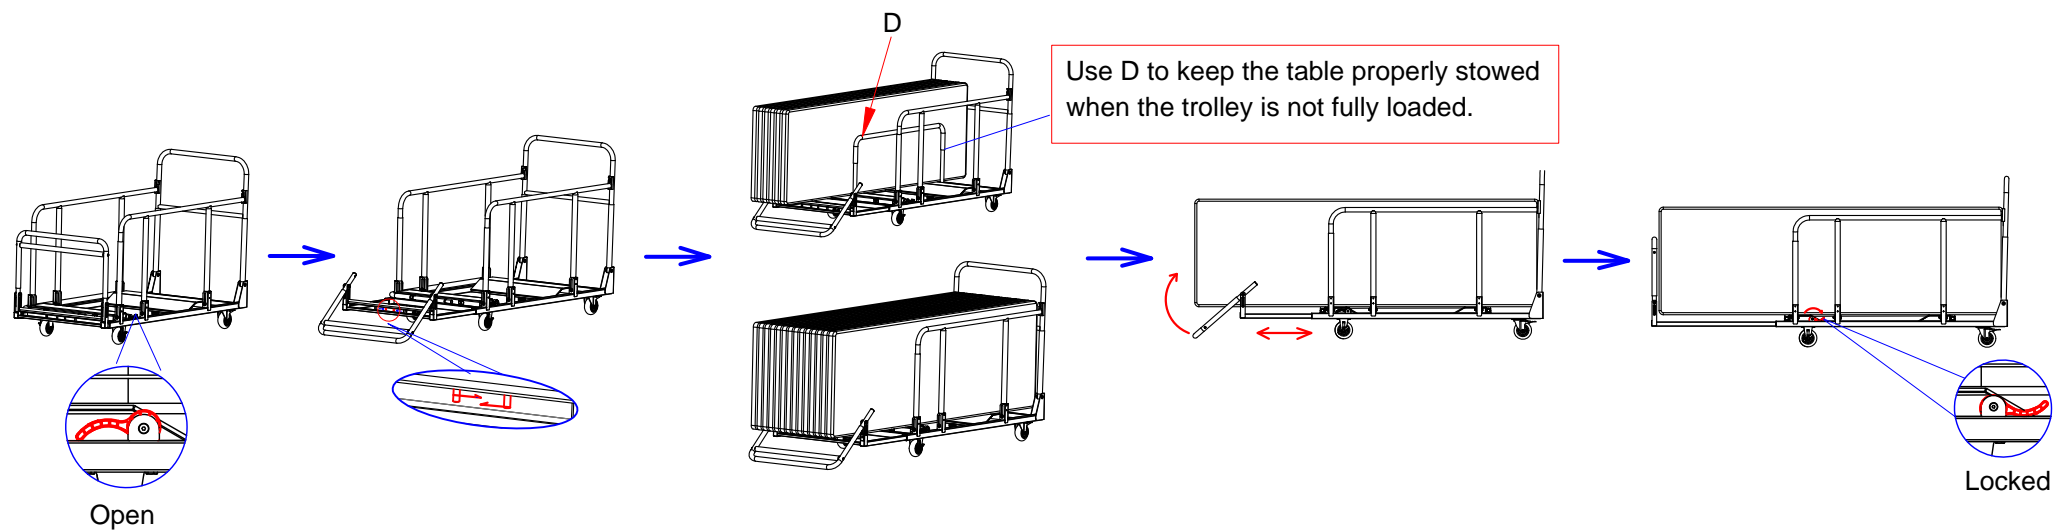

STEP 1: Unlock the **Extendible-Base-Frame** and push it inwards toward the trolley.

STEP 2: Pull up the **Right and Left Frames** and separate them from the **Handle-Frame**. Next, fold the Right and Left Frames inwards. Then fold the Handle-Frame inwards too.

STEP 3: Fold the **Extendible-Base-Frame** inwards and lock into position by using the device as illustrated in the drawing below.
